DATE	ACTIVITY	DESCRIPTION	QTY	RATE	AMOUNT
	Motorcycle Service	•Replace timing belts •Replaced battery - Bike hard starting. Charged still had excessive voltage drops. •Found bike showing Hi voltage on the dashboard, verified bike charging properly at battery. Dash shows higher voltage. Does not seem to be causing an issue otherwise at this time. Relocated and mounted voltage regulator. ***Recommend replacement of the front brake M/C. Bikes seems to have a large amount of free-play in the front brake lever. Bike stops fine but could be improved.	2	165.00	330.00
